ECOSURE WASTE OIL TANKS

Installation Guidelines and Product Notes

IMPORTANT:

The tank has been fully tested prior to leaving our factory. Please check to ensure that no damage has occurred in transit. If you suspect that it has been damaged, please telephone 01763 261781

PRODUCT DETAILS:

- Suitable for the storage of Kerosene, Fuel Oil and GasOil/Diesel including up to 10% biofuel, lubricants, some chemicals
- Bunded to protect the environment
- Bund contains minimum 110% volume of the inner tank
- Removable filter bowl
- 4" mesh filter
- Made from UV stabilised impact resistant polymer
- Designed and manufactured in the UK

PRODUCT NOTES:

- Tank must be sited on a level, fully supporting concrete base, preferably extending 300mm all around all sides. The base will need to provide continual structural support, even though ground conditions may alter from season to season and year to year
- Do not site the tank tight against a wall
- Do not overfill.
- Fill with buckets or containers through the filter bowl
- To empty, open lid, remove filter bowl, remove 4" filter and insert suction pipe
- Carry out a visual check of the tank annually
- If fitted with optional bund alarm, test regularly

BENEFITS:

- Suitable for commercial, agricultural, & industrial use
- Ideal for garages, factories, workshops, bus depots, transport companies, marinas, etc.
- High impact strength
- Bunded construction offers integral protection from leakage and spillage
- Covered bund prevents collection of rainwater & debris
- Rotationally moulded for strength and durability
- 10 year warranty against manufacturing defects

OPTIONAL EXTRAS — CALL FOR FURTHER DETAILS

- Hasp and staple
- 1" bottom draw off to feed waste oil burner
- Filling connections for pumped waste
- Bund alarm
- High level alarm
