

The Garden

UK manufactured garden products

ECOSURE

Company

Etills Ltd is an independent manufacturing company, specialising in rotational moulding and metal fabrication. Based on the Hertfordshire/Cambridgeshire border, we provide high quality, UK designed and manufactured products which are made to last. The materials we use are fully recyclable and our products will provide many years of reliable service. Our ongoing programme of research and development ensures that we challenge industry standards, focusing on innovation and environmental issues.

Etills Ltd is an ISO 9001:2015 certified business. Customer service is central to our success; we provide practical advice and an individualised response to customers' enquiries.

Ecosure is the trademark of Etills Ltd. Cambridge Metal Works is a trading name of Etills' laser cutting and fabrication department.

Made in Britain

We are proud to say that we design and manufacture all our own products in our factory in Melbourn Cambridgeshire.

Where possible, we will always try and source additional products from other British manufacturers.

NEW Dodeca Self-Watering Hanging Basket

REF: DODECA

- ◆ 9 litre self-watering reservoir
- ◆ 14 litre planting volume
- ◆ Available in a various colours
- ◆ Capillary matting included

H: 250mm x D: 400mm

High quality,
laser cut and
powder coated
metal brackets
available.

L: 340mm
H: 300mm

Wall Mounted Water Butt

REF: ECO105

- ◆ Available in a variety of colours to suit location
- ◆ 4" vented lid as standard
- ◆ Frost proof in winter; plastic will not crack
- ◆ Slimline, modern design - ideal when space is limited
- ◆ Opaque plastic reduces algae growth in sunlight
- ◆ Robust, heavy duty product; industrial strength
- ◆ 1/2" BSP brass threaded outlet
- ◆ 2 year warranty

H: 1105mm x L: 500mm x W: 250mm
Capacity: 105 litres

City Water Butt Planter

REF: CITY

H: 985mm x D: 600mm

Capacity: 180 litres

This stylish Ecosure water butt doubles as an elegant planter and is one you won't want to hide away. Plant it up and make it a focal point of your garden!

With its extra large capacity, you will be able to collect plenty of naturally soft rainwater for your garden. The high quality brass fittings are moulded into the tank. All the fittings are provided, allowing for a quick and easy install.

City JustWater

210 litres

Alternatively, we can produce this water butt without the planter bowl to maximise the water storage.

Big City Water Butt Planter

REF: BIGCITY

If you need to store more rainwater, the Big City is just what you need

- ◆ Extra value for money
- ◆ Available in variety of colours
- ◆ Sleek, modern design
- ◆ Small footprint
- ◆ Planting bowl
- ◆ Comes as a complete pack with everything you need
- ◆ 2 x 1/2" brass outlets
- ◆ 2 year warranty

H: 1480mm x D: 675mm

Capacity: 380 litres

Big City JustWater

420 litres

Without the planting bowl, the Big City Just Water allows for extra rainwater storage.

Midi Metropolitan Water Butt Planter

REF: MIDIMETRO

This Midi Metro is ideal for the smaller garden, or courtyard garden.

- ◆ Excellent value for money
- ◆ Ribbed effect
- ◆ Available in a variety of colours
- ◆ Sleek, modern design
- ◆ Small footprint
- ◆ Planting bowl
- ◆ 2 x 1/2" BSP brass outlets
- ◆ Rotationally moulded for strength & durability
- ◆ 2 year warranty

H: 940mm x D: 590mm

Capacity: 165 litres

Just Water Midi Metro

185 litres

Maximise rainwater storage with the Midi Metro Just Water.

Metropolitan Water Butt Planter

REF: METRO

- ◆ Slim modern design - ideal when space is limited
- ◆ Free brass tap, plastic shut off valve and standard diverter
- ◆ Stylish, dual-purpose water butt and planter
- ◆ Raised 1/2" brass threaded outlet for a watering can
- ◆ Bottom 1/2" brass threaded outlet to drain the reservoir completely
- ◆ 2 year warranty against manufacturing defects

H: 1250mm x D: 630mm

Capacity: 255 litres

Just Water Metro

290 litres

If you need to store more rainwater, the Metro Just Water gives you extra capacity.

280 Litre Water Butt Planter

REF: ECO280PL

- ◆ Amazing value for money
- ◆ Available in a variety of colours
- ◆ Sleek, modern design
- ◆ 2 x Planting bowl
- ◆ 3 x 1/2" BSP brass outlets
- ◆ Rotationally moulded for strength & durability
- ◆ 2 year warranty

H: 700mm x **L:** 200mm x **W:** 200mm

Inlet / Outlet: 1" BSP

Capacity: 27 litres

Gravity Fed Rainwater Distribution System

Not everyone has enough space to install a water butt next to their downpipe. But all keen gardeners want to collect naturally soft rainwater rather than using chemically treated tap water to keep their plants healthy.

The ButtBuddy is a simple, discreet, gravity fed system which allows rainwater to be diverted to a water butt in another part of the garden. Simply use the fittings provided to fix the reservoir to a structurally sound wall at the specified level and connect it to your downpipe using the diverter supplied. Run the garden hose from the outlet at the bottom of the ButtBuddy to your water butt. An overflow can be fitted to the water butt receiving the diverted rainwater and excess water directed to flower beds, vegetable patches or even a pond. For larger gardens, when the water needs to be distributed over 30m, we suggest that it is hard piped using our simple compression coupler system. This is a DIY friendly installation which can be buried or surface mounted.

This system is ideal for those who require remote water storage in order to maintain an area away from the house. No need to carry watering cans; just install a water butt or larger water tank where you want it and connect it to the downpipe using the ButtBuddy. It is ideal for domestic gardens, allotments and irrigation systems.

How it works

- ◆ Rainwater is diverted into the top of the Butt Buddy using the diverter supplied
- ◆ It travels through the garden hose connected to the bottom of the Butt Buddy
- ◆ It can then be stored in a water butt or tank elsewhere in your garden
- ◆ The stored rainwater can be used in your garden where you need it
- ◆ Excess water can be directed to a flowerbed, pond, remote soakaway or drain

Garden Ponds /Holding Tanks

Large rectangular ponds are ideal for keen fish keepers. The circular designs with plenty of depth are a cost effective alternative. Both are made from thick MDPE plastic which is rotationally moulded and suitable for internal and external use. The smooth walls make cleaning easy. Our high capacity ponds provide value for money, high capacity and are frost proof; they will not crack in the cold.

All our ponds come with a 10 year warranty against manufacturing defects.

Circular Garden Ponds/Holding Tanks

Capacity	Diameter	Height
900 Litres	1250mm	730mm
1600 Litres	1430mm	1060mm
2000 Litres	1430mm	1430mm

3000 Litres	2660mm	2060mm	1080mm
4000 Litres	3105mm	2050mm	1175mm

Pond features

- ◆ Value for money, high capacity semi-rigid pond
- ◆ Frost proof; will not crack in cold
- ◆ Stepped sides suitable for plants & pumps
- ◆ Robust, heavy duty product; industrial strength
- ◆ Smooth sides for easy cleaning
- ◆ Rotationally moulded for strength and durability
- ◆ 10 year warranty

Raised beds

Raised garden beds are great for growing plants, fruit and vegetables. Their height makes planting more comfortable and weeding much quicker with a smaller working area. Raised beds boost drainage and are a great way to improve or modify the soil.

Suitable for

Raised beds can be used for growing most plants in your garden. Below is a list for you to try.

- ◆ Soft fruits: Including strawberries, gooseberries, raspberries and blackberries
- ◆ Vegetables: Nearly all vegetables can be grown in raised beds
- ◆ Cut flowers: Raised beds are ideal for establishing a cutting garden
- ◆ Alpines: Ideal for alpines that relish good drainage
- ◆ Small trees and shrubs: Depending on how big your beds are, you may be able to grow some smaller trees and shrubs

Raised beds dimensions (mm)

Length	Width	Height
400	400	300 / 450 / 600
600	400	300 / 450 / 600
