

RAISED GARDEN BEDS

Multiple sizes available

Great way growing plants, fruit and vegetables

Comfortable working height, reducing the need to bend

Raised garden beds are a great way growing plants, fruit and vegetables. Their raised height makes garden work more comfortable and weeding much quicker with a smaller working area. Raised beds boost drainage and are a great way to introduce different soils to your garden. They are a great solution for those with limited mobility - without the need to bend or crouch down, these beds are wheelchair friendly. Laser cut from high quality galvanised steel, they come flat pack and are easy to assemble.

- British design & manufacture
- Raised bed with open base
- Comfortable working height, reducing the need to bend
- Ideal for growing herbs, vegetables, fruit or flowers
- Excellent protection from weeds and animals
- Quick and easy assembly
- Robust, heavy duty product; industrial strength
- 10 year structural guarantee
