

THE GARDEN

UK MANUFACTURED
GARDEN PRODUCTS

ECOSURE

Company

Etills Ltd is an independent manufacturing company, specialising in rotational moulding and metal fabrication. Based on the Hertfordshire/Cambridgeshire border, we provide high quality, UK designed and manufactured products which are made to last. The materials we use are fully recyclable and our products will provide many years of reliable service. Our ongoing programme of research and development ensures that we challenge industry standards, focusing on innovation and environmental issues.

Etills Ltd is an ISO 9001:2015 certified business. Customer service is central to our success; we provide practical advice and an individualised response to customers' enquiries.

Ecosure is the trademark of Etills Ltd. Cambridge Metal Works is a trading name of Etills' laser cutting and fabrication department.

NEW Filtered Rainwater Diverter

Compatible with a wide range of downpipes, it fits 68mm and 100mm round downpipes and 65mm square downpipes, making it suitable for most standard UK drainage systems. The diverter includes two different feed spigots for flexible connection options and easy installation with a variety of hose sizes and water butt setups.

Made in Britain

We are proud to say that we design and manufacture all our own products in our factory in Melbourn Cambridgeshire. Where possible, we will always try and source additional products from other British manufacturers.

Wall Mounted Water Butt

REF: ECO105

- ◆ Available in a variety of colours
- ◆ 4" vented lid as standard
- ◆ Frost proof in winter
- ◆ Slimline, modern design - ideal when space is limited
- ◆ Opaque plastic reduces algae growth in sunlight
- ◆ Robust, heavy duty product
- ◆ 1/2" BSP brass threaded outlet
- ◆ 2 year warranty

H: 1105mm x **L:** 500mm x **W:** 250mm

Capacity: 105 litres

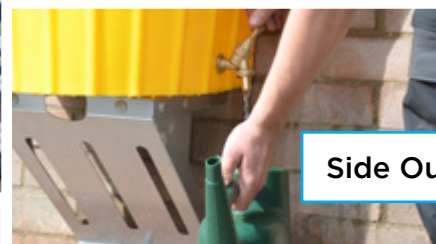

Wall Mounted Cosmo Mini Water Butt Planter

REF: WALLCOSMOMINI

- ◆ D Shape design
- ◆ Available in a variety of colours
- ◆ Sleek, modern design
- ◆ Small footprint
- ◆ Planting bowl
- ◆ 3 x 1/2" BSP brass front and side outlets
- ◆ Rotationally moulded for strength & durability
- ◆ 2 year warranty

H: 940mm x L: 570mm x W: 415mm

Capacity: 150 litres

Side Outlet Available

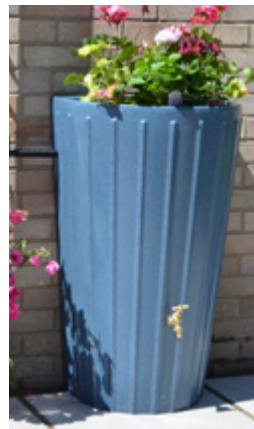

Cosmo Mini

REF: COSMOMINI

- ◆ D Shape design
- ◆ Available in a variety of colours
- ◆ Sleek, modern design
- ◆ Small footprint
- ◆ Planting bowl
- ◆ 3 x 1/2" BSP brass outlets
- ◆ Rotationally moulded for strength & durability
- ◆ 2 year warranty

H: 940mm x **L:** 570mm x **W:** 415mm

Capacity: 150 litres

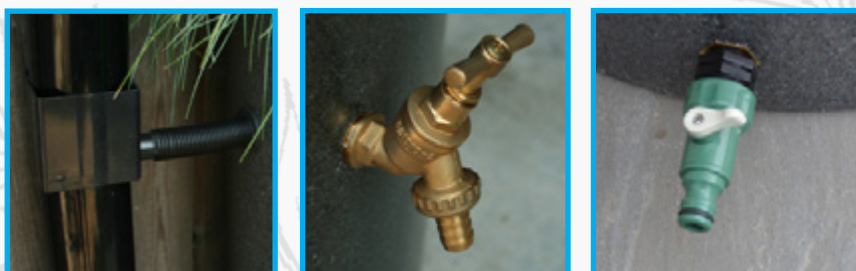

Cosmo Water Butt Planter

REF: COSMO

- ◆ Excellent value for money
- ◆ Available in a variety of colours
- ◆ Sleek, modern design
- ◆ Small footprint
- ◆ Planting bowl
- ◆ 2 x 1/2" BSP brass outlets
- ◆ Rotationally moulded for strength & durability
- ◆ 2 year warranty

H: 1260mm x **D:** 615mm

Capacity: 220 litres

Cambridge Water Butt Planter

REF: CAMBRIDGE

- ◆ Excellent value for money
- ◆ Available in a variety of colours
- ◆ Sleek, modern design
- ◆ Small footprint
- ◆ Planting bowl
- ◆ 2 x 1/2" BSP brass outlets
- ◆ Rotationally moulded for strength & durability
- ◆ 2 year warranty

H: 780mm x **L:** 500mm x **W:** 500mm

Capacity: 90 litres

City Water Butt Planter

REF: CITY

H: 985mm x D: 600mm

Capacity: 180 litres

This stylish Ecosure water butt doubles as an elegant planter and is one you won't want to hide away. Plant it up and make it a focal point of your garden!

With its extra large capacity, you will be able to collect plenty of naturally soft rainwater for your garden. The high quality brass fittings are moulded into the tank. All the fittings are provided, allowing for a quick and easy install.

City JustWater

210 litres

Alternatively, we can produce this water butt without the planter bowl to maximise the water storage. These still feature the brass tap but are instead fitted with a 14" lid.

Big City Water Butt Planter

REF: BIGCITY

Need to store more rainwater?
The Big City is just for you.

- ◆ Extra value for money
- ◆ Sleek, modern design
- ◆ Small footprint
- ◆ Planting bowl
- ◆ 2 x 1/2" brass outlets
- ◆ 2 year warranty

H: 1480mm x **D:** 675mm
Capacity: 380 litres

Big City JustWater

420 litres

Without the planting bowl, the Big City Just Water allows for extra rainwater storage. The brass tap and fittings includes and fitted with a 14" lid.

Midi Metropolitan Water Butt Planter

REF: MIDIMETRO

This Midi Metro is ideal for the smaller garden or courtyard garden.

- ◆ Excellent value for money
- ◆ Sleek, modern ribbed design
- ◆ Free brass tap, plastic shut off valve and standard diverter
- ◆ Small footprint
- ◆ Planting bowl
- ◆ 2 x 1/2" BSP brass outlets
- ◆ Rotationally moulded for strength & durability
- ◆ 2 year warranty

H: 940mm x **D:** 590mm

Capacity: 165 litres

Just Water Midi Metro

185 litres

Maximise rainwater storage with the Midi Metro Just Water Brass tap, diverter and shut off valve included. Fitted with a 14" vented lid.

Metropolitan Water Butt Planter

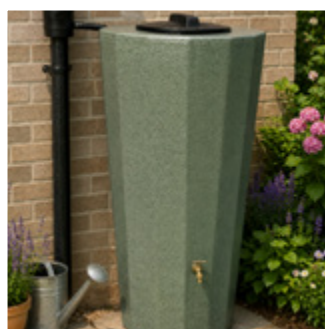

REF: METRO

The Metropolitan water butt planter is exceptionally popular with its sleek, stylish design and large planting bowl will make it a feature in any garden.

- ◆ Ideal when space is limited
- ◆ Free brass tap, plastic shut off valve and standard diverter
- ◆ Stylish, dual-purpose water butt and planter
- ◆ Raised 1/2" outlet for a watering can
- ◆ Bottom 1/2" outlet to drain
- ◆ 2 year warranty

H: 1250mm x **D:** 625mm

Capacity: 255 litres

Just Water Metro

290 litres

If you need to store more rainwater, the Metro Just Water gives you extra capacity with addition of 14" vented lid, you can still access your rainwater.

250 Litre Water Butt Planter

REF: ECO250PL

- ◆ Amazing value for money
- ◆ Available in a variety of colours
- ◆ Sleek, modern design
- ◆ 2 x Planting bowl
- ◆ 1/2" BSP brass outlet
- ◆ Rotationally moulded for strength & durability
- ◆ 2 year warranty

H: 970mm x L: 1100mm x W: 340mm

Capacity: 280 litres

Slimline Water Butt (see page 18)

250 litres

This beautiful ultra slimline water butt is a statement piece for your garden. Complete with 8" vented lid.

Oasis Water Butt Planter

REF: OASIS

The Oasis combines high capacity water storage with a generous planting area.

- ◆ Amazing value for money
- ◆ Available in a variety of colours
- ◆ Sleek, modern design
- ◆ 2 x Planting bowl
- ◆ 3 x 1/2" BSP brass outlets
- ◆ Frost proof
- ◆ Rotationally moulded for strength & durability
- ◆ 2 year warranty

H: 950mm x **L:** 1000mm x **W:** 495mm

Capacity: 375 litres

525L MiniPillar Water Butt

REF: ECO525MP

This compact and durable 525L water butt is perfect for the serious gardener.

- ◆ Fully removable lid for easy watering can access
- ◆ 3/4" raised brass threaded outlet suitable for a garden tap.
- ◆ 2 x 1" brass threaded outlets one on each side to attach a garden or irrigation hose
- ◆ Available in a variety of colours
- ◆ 2 year warranty
- ◆ Small footprint maximises capacity when space is limited

H: 1100mm x **L:** 820mm x **W:** 630mm

Capacity: 525 litres

825L Pillar Water Butt

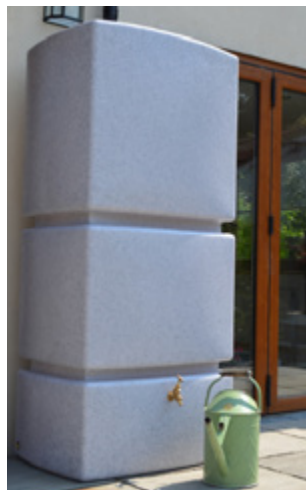

REF: ECO825PIL

This practical water butt allows keen gardeners to collect lots of the naturally soft rainwater plants love.

- ◆ Vented 9" screw-down lid
- ◆ 3/4" raised brass outlet, suitable for a tap
- ◆ 2 x 1" brass threaded outlets one on each side to allow the butt to be drained completely or to connect butts together
- ◆ Tall, slim tank maximises capacity when space is limited
- ◆ Frost proof; will not crack in the cold
- ◆ Opaque plastic reduces algae growth in sunlight
- ◆ 2 year warranty

H: 1800mm x **L:** 825mm x **W:** 630mm

Capacity: 825 litres

1200L Pillar Water Butt

REF: ECO1200PIL

If you are looking for high capacity rainwater storage at a keen price, the 1200L pillar could be the answer.

- ◆ Available in a variety of colours
- ◆ Made from virgin polymer
- ◆ Approximate wall thickness: 6-7mm
- ◆ Vented 14" screw-down lid as standard
- ◆ 3/4" BSP raised brass threaded outlet
- ◆ 1" BSP brass threaded outlet bottom right hand side
- ◆ 2" BSP brass threaded outlet bottom left hand side
- ◆ 2 year warranty

H: 1500mm x **L:** 1200mm x **W:** 670mm

Capacity: 1200 litres

This versatile water butt will provide many years of service. It will never crack in the cold and, like all Ecosure Water Butts, the colour won't fade in the sun.

1500L Pillar Water Butt

REF: ECO1500PIL

This extra large water butt is ideal for large gardens and allotments. With three outlets for optimal rainwater usage and a large 14" vented lid.

- ◆ Doorway access
- ◆ Available in a variety of colours
- ◆ Made from virgin polymer
- ◆ Wall thickness: 6-7mm
- ◆ Vented 14" lid as standard
- ◆ 3/4" BSP raised brass outlet
- ◆ 2" BSP brass threaded outlet bottom right hand side
- ◆ 2" BSP brass threaded outlet bottom left hand side
- ◆ 2 year warranty

H: 1850mm x **L:** 1195mm x **W:** 745mm

Capacity: 1500 litres

Eco-friendly solution that helps conserve rainwater and reduce your water bills. UK made from high quality, weather resistant plastic.

It will never crack in the cold and, like all Ecosure Water Butts, the colour won't fade in the sun.

Slimline Water Butts

Our slimline range is ideal when space is limited. Available in a variety of sizes, from the super-slimline 280L to the sturdy, high capacity 1900L.

- ◆ Available in a variety of colours
- ◆ Colour samples available upon request
- ◆ Manufactured from virgin polymer
- ◆ Approximate wall thickness: 6-7mm
- ◆ 9" vented lid
- ◆ Brass threaded outlet moulded into the tank
- ◆ Central baffles
- ◆ 2 year warranty

- ◆ Approximate wall thickness: 6-7mm
- ◆ 14" vented lid as standard
- ◆ 2 x 2" brass threaded outlets moulded into the tank

WATER BUTT ACCESSORIES

NEW Filtered Rainwater Diverter

Compatible with a wide range of downpipes, it fits 68mm and 100mm round downpipes and 65mm square downpipes, making it suitable for most standard UK drainage systems.

Features two different size feed spigots for flexible connection options and easy installation with a variety of hose sizes and water butt setups.

Type	Rainwater diverters	Water butt overflow kits	Water butt connection kits	Tap kits	Submersible water pumps	Baskets filters
Description	Suitable for all Ecosure water tanks and water butts.	Managing excess rainwater when your water butt reaches capacity	Connect multiple tanks together with these easy to use connection kits.	High-quality brass tap for durability and corrosion resistance.	Available for clean and dirty water.	Various diameters available. Suitable for most water tanks.

Type	Ball valves	Booster water pumps	Hose connection kits	Float switches	Float valves	Water Butt Freshener
Description	Multiple sizes available from 3/4" to 4" BSP.	High powered water pump for domestic and commercial applications.	Perfect accessory for baffled water tanks and water butts.	Great for controlling pumps. Available in various lengths.	Brass float valves complete with arm and float.	Keep water butts and fish tanks clean and fresh by destroying fungal.

Rainwater Harvesting External Tap System

Make the most of your stored rainwater with our Rainwater Harvesting External Tap System. Designed to provide a convenient outdoor water supply, this complete kit includes a reliable pump, pipework and pipe fittings, allowing you to quickly and efficiently access rainwater from your water butt or rainwater tank.

Sustainable Drainage Systems (SuDS)

Sustainable drainage systems (SuDS) provide an alternative solution to stormwater management by collecting rainwater then slowly releasing it into your drainage system. This technique helps control the volume of storm water which otherwise can cause local flooding.

How it works

- ◆ Rainwater is diverted into a water butt
- ◆ When the water butt is completely filled, the rainwater will start to overflow out of the rear outlet. The excess water can be directed to a flowerbed, pond, remote soakaway or drain (with permission from the water board), until it is back down to the 50% capacity.
- ◆ This remaining rainwater can be accessed using the brass tap on the front of the water butt.

Features

- ◆ **Flood Risk Management:**
Effectively reduce the impact of floods by collecting rainwater then slowly releasing it.
- ◆ **Partial Attenuation:** 50% attenuation with slow release and 50% rainwater harvesting suitable for regular garden use.
- ◆ **Quality Material:** UK designed and manufactured, frost-proof and is fully recyclable.
- ◆ **Slimline, Compact Design:** When space is limited, our water butts are slim enough to fit through a standard doorway and low enough for easy access.

Product Details:

- ◆ Sleek, modern design
- ◆ Rotationally moulded from UV resistant MDPE
- ◆ UK designed and manufactured
- ◆ 1" brass top inlet
- ◆ 1" brass bottom outlet
- ◆ Complete with standard black rainwater diverter
- ◆ 30m garden hose supplied (13mm)
- ◆ Wall brackets and fixings included
- ◆ Available in a variety of colours which will not fade
- ◆ For larger gardens, upgrade to our hard piped rainwater distribution system

H: 700mm x **L:** 200mm x **W:** 200mm

Inlet / Outlet: 1" BSP

Capacity: 27 litres

Rainwater Anywhere

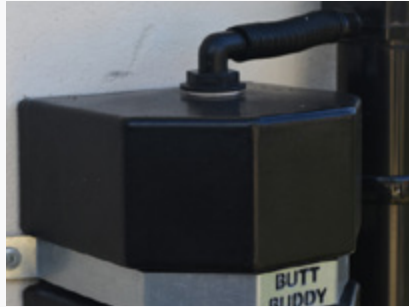

Gravity Fed Rainwater Distribution System

Not everyone has enough space to install a water butt next to their downpipe. But all keen gardeners want to collect naturally soft rainwater rather than using chemically treated tap water to keep their plants healthy.

The ButtBuddy is a simple, discreet, gravity fed system which allows rainwater to be diverted to a water butt in another part of the garden. Simply use the fittings provided to fix the reservoir to a structurally sound wall at the specified level and connect it to your downpipe using the diverter supplied. Run the garden hose from the outlet at the bottom of the ButtBuddy to your water butt. An overflow can be fitted to the water butt receiving the diverted rainwater and excess water directed to flower beds, vegetable patches or even a pond.

For larger gardens, when the water needs to be distributed over 30m, we suggest that it is hard piped using our simple compression coupler system. This is a DIY friendly installation which can be buried or surface mounted.

This system is ideal for those who require remote water storage in order to maintain an area away from the house. No need to carry watering cans; just install a water butt or larger water tank where you want it and connect it to the downpipe using the ButtBuddy. It is ideal for domestic gardens, allotments and irrigation systems.

How it works

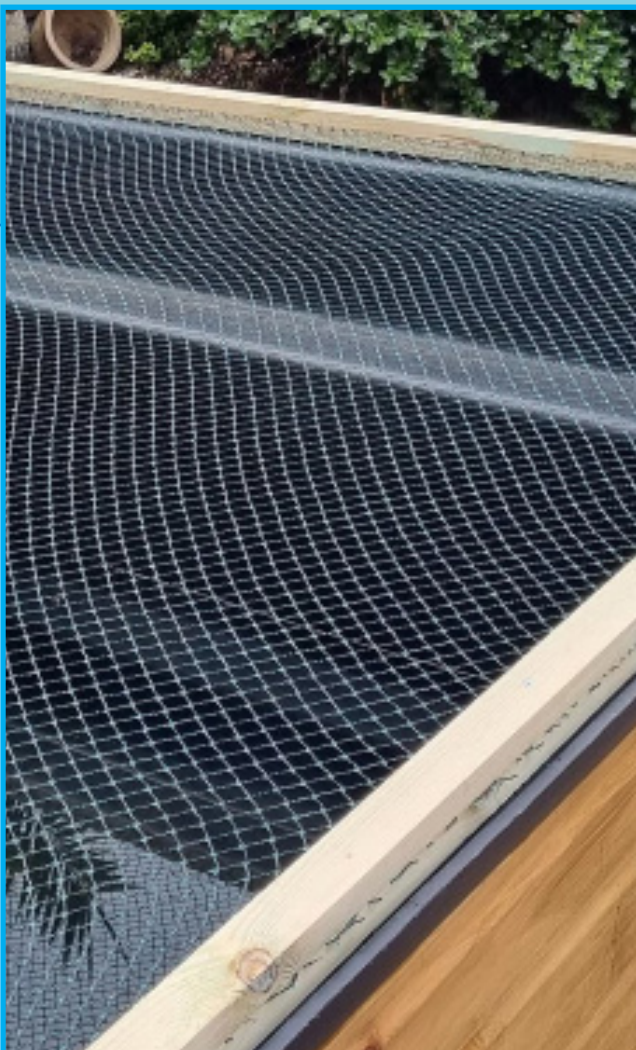

- ◆ Rainwater is diverted into the top of the Butt Buddy using the diverter supplied
- ◆ It travels through the garden hose connected to the bottom of the Butt Buddy
- ◆ It can then be stored in a water butt or tank elsewhere in your garden
- ◆ The stored rainwater can be used in your garden where you need it
- ◆ Excess water can be directed to a flowerbed, pond, remote soakaway or drain

Garden Ponds /Holding Tanks

Large rectangular ponds are ideal for keen fish keepers. The circular designs with plenty of depth are a cost effective alternative. Both are made from thick MDPE plastic which is rotationally moulded and suitable for internal and external use. The smooth walls make cleaning easy. Our high capacity ponds provide value for money, high capacity and are frost proof; they will not crack in the cold.

All our ponds come with a 10 year warranty against manufacturing defects.

Circular Garden Ponds/Holding Tanks

Capacity	Diameter	Height
900 Litres	1250mm	725mm

Bespoke sizes

We can make bespoke raised beds in many shapes and sizes. Contact our technical team on 01763 261781 to discuss your requirements.

- ◆ British design & manufacture
- ◆ Raised beds with open base or optional base
- ◆ Comfortable working height
- ◆ Ideal for growing herbs, vegetables, fruit or flowers
- ◆ Protection from weeds and animals
- ◆ Quick and easy assembly
- ◆ 10 year guarantee

Corten Steel Raised Beds

Bring timeless elegance and unmatched durability to your garden with corten steel raised beds.

- ◆ **Strength:** Made from thick-gauge corten steel that resists warping, cracking, and rust-through.
- ◆ **Natural Beauty:** Over time, the steel forms a warm, earthy patina that blends seamlessly with plants, stone, and wood.
- ◆ **Low Maintenance:** No painting, sealing, or chemical treatments required.
- ◆ **Sustainable Choice:** 100% recyclable and built to last for years to come.

Water Butt and Planter Sets

Large Tree Planters

Planting trees in large planters is a great solution for landscapes with little or no outside space. They can be used to frame entryways or to provide interesting focal points.

Our tree planters are well suited to small spaces such as patios and decks and can be used alongside other planting areas as well. These light weight plastic planters are weather and impact resistant.
