Product Information

| Product | Height | Width | Length | Capacity | Weight | Colour |
|-----------------|--------|-------|--------|------------|--------|--------------------|
| Deep version | 350mm | 610mm | 1250mm | 115 litres | 6kg | Yellow as standard |
| Shallow version | 250mm | 610mm | 1250mm | 75 litres | 5kg | Yellow as standard |

PRODUCT NOTES:

- Spill trays must be sited on level, fully supporting base
- If in doubt, please call to check material compatibility with product stored

Sizes approximate, owing to shrinkage

STORAGE BASICS:

- Clearly label individual containers with details of contents and any hazard they pose
- Display warning signs, e.g. appropriate hazardous substances symbols (pictograms), at access points to dedicated stores
- Store different materials separately so they cannot mix if a leak occurs (this is a legal requirement for some substances - see HSE guidelines)
- Only keep the minimum working quantity of materials on site
- Protect storage from extremes in weather whenever possible, e.g. sunlight, frost
- Keep storage areas away, or isolated, from on-site drainage, surface waters and groundwater and vehicle routes.

PRODUCT DETAILS:

- Heavy duty spill tray, available in two depths
- Low profile
- Manufactured from 100% polyethylene with the latest UV stabilisation package
- Strong external lip
- Available in deep and shallow versions
- Available in a variety of colours upon request

This Ecosure spill tray will help you to comply with the current oil and chemical storage regulations. Made entirely from polyethylene, it is suitable for use with all oils and most non-combustible chemicals. In the event of a leak, fluid is contained, preventing contamination.

BENEFITS:

- Protects the workplace, environment and personnel
- Retains long term structural integrity
- Maintenance free
- No drainage points to compromise the bund
