Specification subject to change; please call to confirm details

## PRODUCT DETAILS:

- Sleek, modern design
- Rotationally moulded from UV resistant MDPE
- 1" brass inlet moulded into the top
- 1" brass outlet moulded into the bottom
- Complete with black rainwater diverter
- Also supplied with 30m garden hose (13mm)
- Wall brackets and fixings included
- Available in a variety of colours to suit location

## BENEFITS:

- Frost proof in winter; plastic will not crack
- Slim design - ideal when space is limited
- Shape maintained when full of water
- Robust, heavy duty product; industrial strength
- Opaque plastic reduces algae growth in sunlight
- Colour samples available upon request
- Rotationally moulded for strength & durability
- 2 year warranty against manufacturing defects

## APPLICATIONS

- Forms part of a rainwater management system
- Diverts rainwater to another part of your garden
- Can help to
  - reduce surface water
  - form part of flood reduction measures
  - prevent overflow problems

## How It Works

- Rainwater is diverted into the top of the ButtBuddy via the diverter.
- It travels through the garden hose connected to the bottom of the ButtBuddy.
- It can then be stored in a water butt located almost anywhere in your garden.
- The stored rainwater can be used in your garden.
